awesome, congrats!!! So what made you draw on my face; did you remember I was a devil child in catholic school? Lol

sbkosinski @andrew_belletti catholic school makes erryone a devil or guilty. I actually drew on alot of people I just like drawing on stuff. I came across them when I was moving out of my parents and wanted to make them into postcards or something.

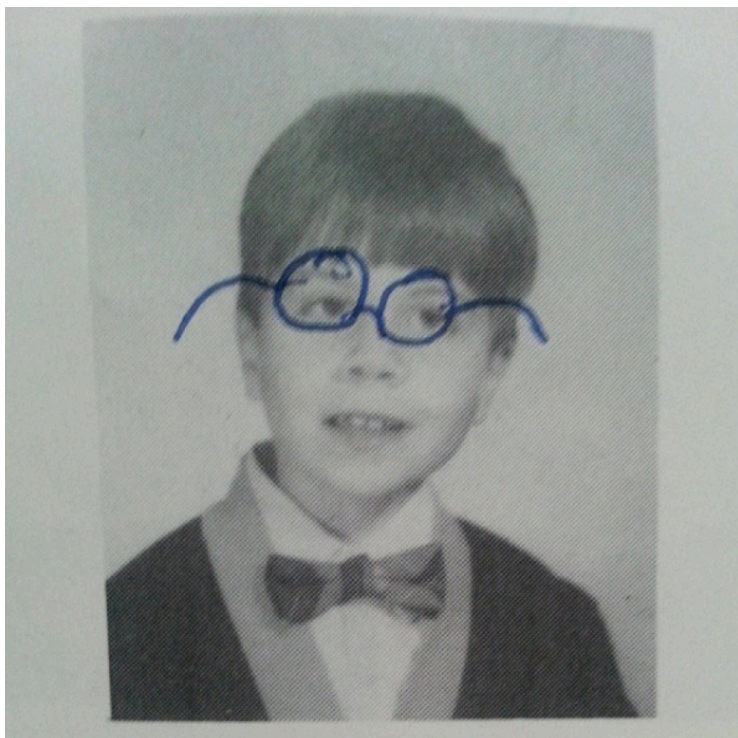

andrew_belletti @sbkosinski That's just too funny!!! I'm just laughing at the chances I'd find you and find a picture of me. This world can sure be tiny sometimes

sbkosinski @andrew_belletti yes but I also predicted your beard pretty accurately

There is a Kingdom called [King Noodle](#). All the noodles of the world must go there once in their lifetime to walk the [noodle](#) path. Their chef-god is Chinese but is often depicted as a blond guy with orange eyes in history books and sculptures. If you are not a [noodle](#) and want to visit [King Noodle](#), you must get an Alien visa of extraordinary [noodle](#) abilities. You have to get letters from [Noodle](#) masters saying how awesome you are. You need to know udon, soba, ramen, rice [noodle](#), gnocchi, linguine and even obscure noodles made by low-life underachievers (those that taste like ashes but are popularized by how "authentic" they are). You can't be ordinary but maybe you are.

The upcoming Monday is the NEW YEARS!, the moon one.

What a wild one it was this year!

here's another one for the pages, a powehm I wrote some time ago about beginnings and ends and seeing the heavy as light:

:

"Dharma and Innocence Again"

A grove of fig trees can be without their fruits, leaves, trunks and branches, they grow by their roots, so it's only a matter of time that they branch and fruit... but why fruit?
to again headlong to the frost...?

This severe winter, unbearable, has no medicine
nature knows no ailment.

Rather, let the void be void. Take it a signal to implode, to go back to singularity

to disentangle continuity

by practicing death before dying and rebirth before death.

A chance to catch that wave, that softening wave of never having to try again.

To let the frost rest everything in its place, tune in on the roots that took, let it play out its metaphysical tune.

Watch the roots resonate trunk, branch, leaf and fruit.

And be OK with any where or way it goes.

Arhat is also the tree and he tells it what it is

"Truth is not arriving, not a pin-point that I stand on, nor all encompassing, looming over me. My leaves fruits and roots, reaching out exuberantly, more to that I sense. No intention of having mysteries known. Don't take a tree's word for it, not the words of gods or prophets, or anyone's for that matter, it's lazy."

"The best gifts are, indeed, the most self-ish
and to be oneself is the best gift to oneself.
What a relief to make innocently, again."

Art Bylopes That's the 60's into 70's afro look, even some white guy's wore the natural look and proud... I had a few white friends that could get away with my hair look back in the day as well. The girls loved it, black, white, in between, I knew it and here's living proof. Some still sport the Hendrix look even today man, its always been hip and with a smile. 😊
